

**February 2019**  
**CHURCHES TOGETHER ORPINGTON**  
**PRAYERS**

Dear Friends

Alpha courses are a very important way of evangelising.

Let us pray for all the people organising Alpha, the helpers, the people attending and those thinking of attending.

Lord may your spirit fill their hearts and open their minds.

We pray for the current Alpha courses running at St Nicholas Church Leamington Avenue, from January to March; and Holy Innocents' from January to April. Amen

We pray that the Alpha Course beginning on Thursday 21st February at 8pm at Orpington Baptist Church (OBC) will be well attended and a success. Amen.

Lord we Pray for Our Churches Together working with the homeless and the vulnerable through Foodbank, Christians Against Poverty (CAP) and Bromley Night Shelter. Strengthen everyone involved so that they may continue giving comfort and aid to those in need. Amen

We Pray for the Street Pastors team going out every Friday evening from Orpington Baptist Church; also the multicultural Church family at OBC. Amen

We pray for everyone involved in planning the Good Friday Walk of Witness with Churches Together in Orpington. May it be a successful witness to our town and be well attended. Amen

We praise God for the launch last June at Unity Church on the Ramsden estate, of the Orpington CAP Job Club. We give thanks that volunteers from 6 different churches across Orpington are currently involved with this exciting new ministry – the partnering of the local church, with CAP, to reach out to those in our town who are struggling with unemployment. Please pray that this ministry will grow and flourish, so that it can become a real source of blessing to many. The aim of the Job Club is not only to equip people with practical skills, which will improve their prospects of finding employment, but also to show them the love of God as they journey through the 8 week Programme that CAP Bradford have put together. Please also pray that finances will also continue to come in so that the Job Club remains financially sustainable. Amen
